

Test Engineer

Well-established provider of professional services to the Electronics Industry

Eurofins York (formerly York EMC Services), a subsidiary company of the Eurofins Group, is a leading international provider of regulatory compliance services and products to the manufacturing and electronics industry, particularly in the fields of EMC, Radio, Electrical Safety, EMF and RF.

Applications are invited for the position of Test Engineer (Radio/EMC) to further expand the testing capabilities at our Castleford laboratory. Duties will include the development of radio testing capabilities and other international standards and performance of radio and EMC compliance testing for our rapidly expanding customer base.

The successful candidate will ideally have similar proven development and testing experience in a customer driven environment together with excellent interpersonal skills.

Where not already gained, the candidate will need to show a willingness to work towards professional recognition status.

In return, the post attracts:

Competitive salary

Contributory DC pension

An impressive array of employee benefits

Professional development & recognition opportunities

Pleasant working location based in Castleford (West Yorkshire), with occasional travel within the UK.

Applications in strict confidence, with covering letter and enclosing a current CV (quoting reference EY/CRTE01), by e-mail to jobsyork@eurofins.com. No agencies.
