

Bespoke & Scheduled Training Courses

Whether it be essentials or more advanced and in-depth courses, our training portfolio is designed to meet everyone’s training needs so that manufacturers, project engineers, designers and managers can achieve regulatory compliance in a knowledgeable and cost-effective manner.

Our Scheduled Training Programme

Our scheduled programme of training courses runs throughout 2020 and covers a wide range of topics and areas across EMC, Radio/Wireless, Electrical Safety, EMF and EMC Design.

Delivered by industry experts, these courses are the ideal opportunity to explore new subjects, get up to speed with industry developments or refresh your knowledge.

Below are the courses that are scheduled for 2020 along with the location, duration and costs. To book your place on any of these courses or to discuss multiple bookings, please call the Eurofins York office on **0330 430 3456** or email trainingyork@eurofins.com

Bespoke & On-Site Training

In addition to our comprehensive training schedule, our courses and workshops can be adapted or developed as a specialist solution to your organisation’s needs and requirements.

We can develop, adapt or modify any of our existing training courses to ensure your employees are provided with the level of training most appropriate to them.

These courses can be in many forms from one-day “Introductory” awareness activities through to programmes with several multi-day courses and can be delivered at a location that is convenient for you.

For more information or to discuss your training requirements, please call the Eurofins York office on **0330 430 3456** or email trainingyork@eurofins.com
