

## (Senior) Consultant Engineer

**Well-established provider of professional services to the Electronics Industry**

York EMC Services Ltd, a subsidiary company of the Eurofins Group, is a leading international provider of electromagnetic compatibility, electrical safety and telecoms services.

Applications are invited for the positions of Engineer and Senior Engineer to provide consultancy and other services to our broad customer base.

The successful Senior Engineer candidate will have an MSc/MEng/MPhys or equivalent, with 3 years' experience in the railway industry. They will be looking to continue a career in the regulatory compliance industry, specialising in rail (though not exclusively). The role involves project managing and undertaking consultancy/research projects on behalf of clients in the UK and worldwide. Tasks include preparing compliance management plans/documentation and risk assessments in conjunction with the client and sub-contractors.

The successful Engineer candidate will have a BSc/BEng/MPhys or equivalent. They will be looking to develop a career in the regulatory compliance industry, including rail (though again not exclusively). The role involves undertaking consultancy/research projects on behalf of clients in the UK and worldwide. Tasks include preparing test plans, method statement and risk assessment documentation in conjunction with the client, sub-contractors and other YES engineers. Progression will be towards Project Management and development of new sectors/services and for the right candidate promotion to Senior Engineer in 3-4 years.

Based in York, there will be regular travel to client meetings in the UK with occasional opportunities to travel abroad on business. There is also the opportunity to contribute to our delivery of CPD training courses.

Previous examples of projects and clients include Network Rail, Crossrail, London Underground, Government agencies, Virgin Media and Doha Metro (Qatar).

The successful candidates will be able to evidence excellent personal organisation and time management skills; a demonstrable proactive approach; a track-record of project management and ownership (senior engineer); a willingness to progress in both the Institute of Leadership & Management scheme and to gain Chartered Engineer status.

In return, the posts attract:

- Competitive salary
- Contributory DC pension
- Flexitime
- Profit Related Pay based on development objectives
- Full training
- An impressive array of employee benefits
- ILM/CEng opportunities

Pleasant University campus based location with good public transport

This is a superb opportunity for candidates with good written and verbal communication skills to join a highly technically experienced, close knit, yet growing team and to become fully involved in a successful company with a unparalleled reputation and track record for delivery. For an informal talk about the post please call the Consultancy Manager on 0330 430 3456.

This post will be based on campus at the University of York with some travel, mainly in the UK but occasionally worldwide.

Applications in strict confidence, with covering letter and enclosing a current CV (quoting reference YES/CE/SCE01), by e-mail to [jobs@yorkemc.com](mailto:jobs@yorkemc.com). No agencies.
