

# EMC Directive Explained

## 1 Day Course

### Why attend?

This one-day course provides a full understanding of the EMC Directive 2014/30/EU, which superseded 2004/108/EC with no transition period in April 2016.

It includes comprehensive guidelines on the requirements and contents of EMC documentation including Technical Documentation and the Declarations of Conformity (DoC). These are essential aspects of ensuring compliance with the EMC Directive.

The new provisions in the directive compared to its predecessor affect not just Manufacturers but also **Authorised Representatives, Importers and Distributors** in the EU. The implications of these provisions are discussed in this course.

### Who should attend?

- All those involved in EMC approvals documentation
- Engineering Directors
- Approvals Engineers
- Engineering Managers
- Quality Managers

### Your programme includes:

- The new EMC Directive 2014/30/EU
